

APEL40PL POUCH LABELER

About Us

Accent Label Automation is a family run business located just outside of Vancouver, BC. Our mission is to supply professional, high quality and supported equipment to all of our customers.

The APEL40PL Pouch Labeler applies labels onto various pouches, cartons and flat products. The high friction belting, hold down rails and guide rails ensures that accurate label placement is achieved. Its versatility and upgradability allows for many different size products and easy change over. The standard APEL40PL runs at 40 metre/ minute, assisting you in getting your labeling done quickly.

Optional upgrades

Automatic Feeding

Upgrade to a fully automatic labeling system with the addition of the AXF26. Automatic Feeder. The AXF26 can dispense up to 180 pouches per minute.

Print Application

Print any variable data such as barcodes, lot #, expiry date with the Novexx Solutions printer applicators.

Customizations

We specialize in custom labeling solutions. Whether you require a wider conveyor for large products need an additional label head for a second label, our experts will advise you along the way.
